We, the undersigned having this day been appointed by Thaddeus A. DeFriez Notary Public, he having been requested by Frank Tomlin, Master of the wrecked Schooner French Vangxilder of Bridgton, New Jersey, now stranded on Tuckernuck Shoal, to hold a survey on said Wrecked vessel, did on the first day of April go on board of said vessel and after a careful survey would report as follows

We found her sails, and running rigging gone, having been taken off by the Captain on the 30th inst: we found also her hull badly broken and full of water, her decks stood up three feet amidships, her main mast raised four feet, and taking into consideration the exposed situation of the vessel and there being no seeming prospect of removing her from her stranded, we were unanimous in recommending that she be stripped of all anchors, chains, rigging and effects, with all possible dispatch and the same to be landed in Nantucket.

All went well until Pollock Rip Light Ship bore East distant three miles, when on account of a severe squall from N.N.W. took in Forsail and hauled down the Main Sail, hauled out the luring and set it again.

Continued on, close hauled by the wind to the westward hoping to fetch by Great Point, Island of Nantucket, but it becoming very rough, failed to do so, and at 11 o.clock P. M. the vessel struck on Great Point Rip. Remained there a few moments, when the vessel beat over.

Ran down the land close to the beach hoping to get under the lee of "Sankaty Head", but the sea breaking over the vessel, took in all sail and anchored. Jettisoned about three tons of Stone. In accordance with the foregoing Warrant, we the undersigned have attended to our duty as therein set forth.
We have been on board of the Schr "Oregon" as she lays stranded at the East Side of our Island, and after a careful survey would report as follows.
We found her bilged, Hull badly strained and broken up on her quarters. Decks opened, and after a careful consideration, we were of the opinion that there was no possible chance for the removing of said vessel from her present stand.

We therefore recommend that the vessel be stripped with all possible dispatch, and that the cargo be landed on shore either by vessel or otherwise for the benefit of all concerned.

All went well until 8 P.M. of the 11th inst. when the Jib Stay was carried away, it blowing a gale from the North, vessel running before it, steering S. by W. with a heavy sea breaking constantly over the vessel. Made every effort to get into Butler's Hole but fell to leeward. Came to an anchor at about 10 o'clock P.M. let go the best bower with thirty fathoms of chain, found the vessel dragging, let go the other anchor, giving all chain on both. Found the vessel was likely to founder, slipped one chain, and the other parted. Soon after parting the vessel struck on one of the Shoals near Pollock Rip and commenced leaking, endeavored to weather Great Point on the Island of Nantucket, but fell to leeward, and struck the beach about four miles from Great Point at about three o'clock A.M. of the 12th inst. Had good weather with light baffling winds until 4 A.M. Friday, April 1st, then took a fresh breeze from E.S.E. and weather clear; At 8 A.M. passed the Pollock Rip Light Ship, snowing fast and very thick; at 9.30 A.M. passed the Handkerchief Light Ship, weather continuing the same, concluded to anchor, so steered S by W until in 4 7/2 fathoms of water, when let go Port anchor with 30 fathoms of chain;

At 10 A.M. on the 2d inst. the wind veered to N.N.E blowing heavy: let go the Starboard anchor with 30 fathoms of chain, and gave 60 fathoms on Port anchor.

At 2 P.M. blowing a gale from N. gave all chain on both anchors.

At 4 P.M. bent 60 fathoms of hawser on Stream Anchor and let it go.

At 7.45 P.M. blowing a heavy gale, parted Port chain; at 8 P.M. parted the Starboard chain and commenced dragging, cut hawser and set head sails and a piece of the foresail and steered S by W 1/2 W, weather very thick and blowing a very heavy gale from N. with snow.

At 11 P.M struck bottom, blowing a fearful gale from N.N.W.

Immediately took in all sail, vessel pounding heavily and shipping large quantities of water.

At 2 A.M. more moderate, vessel laying easier and weather clearer. At daylight found we had struck on Nantucket Bar about three miles to the westward of the Harbor

where the now remains.

All went well during the passage. Took a Pilot on the 21st inst. at 12 M. and anchored at the back of the Bar at Nantucket in a good position to enter the harbor when the tide and wind were favorable.

Had light head winds and calms until Monday night the 25th inst., at 12 o.clock the wind suddenly veered from S.E. to N.E. and commenced to blow very heavy with rain and very thick weather.

Reefed sails and got underway and stood off shore; very soon split and blew away the flying Jib and Foretop sail.

Now stop and stood in shore, found the vessel unmanageable, came to an anchor, wind increased to a fearful gale with a heavy sea. at 7 o.clock A.M. the 26th inst. parted the big chain, let go the other anchor and dodge. found the vessel dragging on to the Bar. and when the vessel was within a half cable's length of the Bar slipped chain (had previously made sail) and entered the channel over the Bar but being low water the vessel struck heavily and continued

Nantucket Dec 13. 1887. John Love, Master of the Brigantine "Anglo" of Lunenburg, Nova Scotia, of the burthen 298 Tons, Sailed from Demerara on the thirteenth day of November. 1887. Bound for the Port of Boston, Massachusetts, with a Cargo of three thousand & nine bags of Sugar.

All went well until making Cross Rip Light Ship at 5.30 P.M. on the 12th inst. Then found a strong N.E. current, Wind W.S.W. and Hazy. Steering E.S.E. for the Handkerchief Light Ship to make allowance for the Current.

Made the Handkerchief Light Ship as I supposed, continued on my course until the Vessel struck at 8 o'clock P.M. of the 12th inst.

Found the vessel hard and fast; clewed up the sails and dropped one anchor. Set a signal of distress, which was answered by a rocket from the Life Saving Station. Very soon a Boat came from the Life Saving Station.

As it was now blowing a Gale from the N.W. thought best for the safety of our lives to leave in the Life Saving Stations boat.

Found the vessel on the West side of Great Point, Island of Nantucket, State of Massachusetts, Where she now lies.

The undersigned appointed to hold a survey on the Brig "Anglo" of Lunenburg N.S. Capt J. Spune now ashore near Great Point, Report as follows.

Found the Brig about 300 yards inside Great Point, and about 50 yards from the beach, lying perfectly easy, broadside on, in about 9 feet of water at half tide, with 2 feet of water in her. Starboard Anchor down with short range.

Vessel apparently in good order, with exception of Tiller having been worked off the Rudder head. Anchors laid out ready for hauling her off.

Would recommend taking out part of her cargo, and weather holding moderate, we see no difficulty in hauling her afloat.

Mainsail and Gaff-topsail to turn the vessels head off shore. Continued to heave on the hawsers at intervals until after high water.

Stopped heaving at eleven o'clock at night. Found the vessel had changed her position, heading one half point more off shore. Took in all sail and tended the pumps during the night.

At about seven O'clock A.M of the 14th inst. two Tugs and one Lighter belonging to the Boston Tow Boat Company arrived at the Brigantine, and Harvey Cook the Agent of the said Company came on board and enquired where the Captain of the Brigantine was. He was informed that he probably was coming in a Dory near by.

On the Captain's arrival he conferred with the aforesaid Agent, and the aforesaid John G. Crpin, Warren F Ramsdell Benjamin B Pease and William Jernegan, and it was agreed that the Agents of the Tow Boat Company should use his appliances to get the vessel off in co-operation with the aforesaid John G. Crpin. Warren F Ramsdell. Benjamin B Pease William Jernegan and their Twenty men from Nantucket.

A portion of the latter commenced discharging the cargo into the Lighter and the remainder employed repairing the rudder.

Discharged three hundred bags of sugar, when the Tugs succeeded in floating the vessel.

Then fifty four sacks of sugar were taken from the Lighter and put back on board the Brigantine.

In the mean time a crew went with the Underwriters boat to the Life Saving Station for the effects of the Captain and crew of the Brigantine. After all was on

board, Captain Love engaged the aforesaid John G. Orpin, Warren F. Ramsdell, Benjamin B. Pease and William Jernegan to help work the vessel into Wharf and Haven, after the vessel arrived there, the last named men assisted in stowing the sugar taken from the vessell.

All went well until the morning of the 28th inst. when being surrounded by a dense fog and judging the vessel to be in Soundings, and not having had an observation since passing Cape Hatteras, stopped and sounded in Seventy (70) fathoms; Slowed down and Sounded at short intervals.
At noon of the same day got twenty (20) fathoms, which decreased to fourteen (14) fathoms; altered the Course to due East, going dead Slow, lead Kept going, got fifteen (15) then sixteen (16) fathoms.
At 2.25 P.M. went Slow ahead, and at 2.30 P.M. the vessel struck.
Reversed the Engine at full speed, trying to get the vessel afloat.
Continued every possible measure to float the vessel until 4.30 P.M.
Finding the vessels ballast tanks full of water, and a rock apparently through the bottom, and the Sea breaking clean over the vessel, night coming on, deemed it advisable for the preservation of our lives to leave the vessel and seek assistance.
Previous to leaving the fog lighted up and I saw Nantucket Island bearing N.W. from five to six miles distant. Left the vessel in two Life boats;

when half way ashore, met the Life boat from the Life Saving Station; Continued on in Company, until back of the surf; finding it impossible to land in Ships Boats, were transferred in portions to the Life Saving Station's boats and safely landed aft the Station at 6. P. M.

in about ten minutes was fast aground.

The sea breaking all over the
Ship. Clewed up all sail, and got out one
boat. Made signals for assistance, which
were answered from the shore.

At eleven thirty (11.30) P.M. Ship striking heavily, sounded the pumps, and found six feet of water in the hold. To prevent the Ship from breaking up or rolling over, cut away the Main-Mast, which carried the Mizzen-mast at the deck; Fore Topmast and Foremast head, smashing two boats, and breaking Poop rail.

At two (2) A.M. found nine feet of water in the hold,

The wind hauling more to the Westward, and the sea breaking heavily and Ship pounding very heavy, found it impossible to stand with Ship's boat, it being stove and full of water.

At four (4) A.M. could see the people on the shore preparing to assist us. At six (6) A.M. the Life Saving Station men shot a line over the Ship, and placed their mortar, so that one by one, we were all safely landed on the Island of Tuckernuck, a small Island near the Island of Nantucket. State of Massachusetts. U.S. America.

That on the twenty-eighth day of January 1889 the said first named deponent having arrived at Nantucket did, within twenty-four hours thereafter, note for Protest, before Thaddeus C. Defriez, Esqr. Notary Public to be extended, if occasion should require.

And the said appearer did further severally declare that the said Ship "Antonette" at the time of her departure from Montevideo S.A. as aforesaid, was tight, staunch, and strong; was well and sufficiently manned, provided, and furnished with all things needful and necessary for said voyage; and that during the said voyage the said appearers and the residue of the crew used their utmost endeavors to preserve the said Ship "Antonette" from damage.

And therefore, the said Richard M. Ferguson

Master did declare to protest, and by these Presents he doth solemnly protest against all and every person or persons whomsoever it doth or may concern: and doth declare that all damages, losses, and detriments that have happened to the said Ship "Antoinette" are and of right ought to be, born by the Merchants and Freighters interested, or their respective underwriters, or whomsoever else it doth or may concern, by way of average or otherwise, the same having occurred as before set forth, and not by or through the insufficiency of the Vessel, the neglect of him the said appearer, or either of the Mariners belonging to said Vessel.

In Witness Whereof, The said appearers have hereunto subscribed their names, in presence of me the said Notary.

Richard M. Jorgensen. Master
Charles A. Covert. Mate
Frederick M. Simpson A.B.

All which matters and things were declared, alleged, and affirmed before me the said Notary.

In testimony, Whereof, I have hereunto set my hand and affixed my official Seal the day and year first above written.

"The undersigned appointed to hold a survey on Ship "Antoinette" of Yarmouth N.S. Stranded on west end of "Tuckernuck Island, do make the following report (as seen from the Beach, the sea being too rough to board her)

"The Ship lies in the wash of the surf. Main & Mizzen masts gone by the deck Foremast gone flat eyes of the rigging, all Spars hanging alongside, Ship full of water. When over left her.

Starboard floor timbers appear to be broken, as the bilge hollows in.

We recommend that she be stripped of what remains, and everything possible be saved for the benefit of all concerned.
